PROFESSIONAL SUMMARY

Frontend Developer with **3+ years of experience** specializing in **Angular, React.js, TypeScript, JavaScript, and REST APIs**. Experience supporting enterprise ERP applications used by **10,000+ users** across India and Gulf markets, covering Sales, Finance, Purchase, Accounts, Inventory, and Reporting. Strong in responsive interfaces, reusable components, API integration, reactive forms, debugging, performance tuning, and production support. Exposure to **UAE/Gulf client projects** and Agile software development.

PROFESSIONAL EXPERIENCE

Frontend Developer

Easy Design Systems | Coimbatore, India
Jun 2024 – Aug 2026

Angular | TypeScript | RxJS | Angular Material | REST APIs | SQL Server | SCSS | Git

- Supported enterprise ERP applications serving **10,000+ users** across India and Gulf markets.
- Handled **6 business areas:** Sales, Finance, Purchase, Accounts, Inventory, and Reporting.
- Crafted reusable Angular components, reactive forms, dynamic tables, filters, and validations.
- Connected REST APIs for business data, transactions, and application workflows.
- Tuned API calls, data processing, and UI rendering for responsive application performance.
- Investigated functional, UI, API, and production issues across ERP modules.
- Coordinated with backend, QA, business, and international teams during Agile delivery.
- Supported UAE/Gulf projects, including **Dubai Castle Support IT Solutions**.
- Participated in requirement analysis, testing, releases, and production maintenance.

Web Developer

Machenn Innovation | Coimbatore, India
Nov 2023 – Feb 2024

React.js | JavaScript | Vite | Firebase | ChatGPT API | Stockfish Engine

- Created React.js interfaces and reusable components for a chess gaming platform.

- Connected ChatGPT API and Stockfish Engine for chess assistance and analysis.
- Configured Firebase Authentication for secure user access.
- Refined responsive layouts and interactive elements for desktop and mobile.
- Contributed to **AllReal** and **Sigaram64**, including the chess learning platform associated with Grandmaster Surya Ganguly.

Python Full Stack Developer Intern

Brainery Spot Technology | Coimbatore, India
Apr 2023 – Oct 2023

Python | Django | Django REST Framework | MySQL | HTML | CSS | Bootstrap

- Built web applications using Django, REST Framework, and MySQL.
- Created responsive pages with HTML, CSS, JavaScript, and Bootstrap.
- Produced a Restaurant Booking System covering reservation and menu workflows.
- Applied CRUD operations, database integration, and backend business logic.

PROJECTS

TITAN ENTERPRISE ERP PLATFORM

Angular | TypeScript | RxJS | REST APIs | SQL Server

Enterprise ERP platform supporting **10,000+ users** across India and Gulf markets. Worked across Sales, Finance, Purchase, Accounts, Inventory, and Reporting.

RESTAURANT PLATFORM — GULF CLIENTS

Angular | React.js | React Native | CSS | REST APIs

Contributed to restaurant applications with **menu, ordering, booking, and shopping-cart** workflows, including item addition and UI styling.

ALLREAL CHESS GAMING PLATFORM - SIGARAM64

React.js | JavaScript | Firebase

Contributed to frontend features and responsive interfaces for a chess learning platform associated with **Grandmaster Surya Ganguly**.
