PROFESSIONAL SUMMARY

Front End / Software Developer with 3+ years building and supporting enterprise web applications in Angular, React.js, and TypeScript. Delivered and maintained core modules of a production ERP platform serving 10,000+ users, and provided live technical support to UAE-based clients. Comfortable owning features end-to-end, from reusable components and REST API integration to debugging and production maintenance, in Agile teams alongside backend, QA, and business stakeholders.

TECHNICAL SKILLS

Frontend: Angular, React.js, React Native, TypeScript, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, Angular Material, RxJS

Backend: Node.js, Django, Django REST Framework

APIs & Integration: REST APIs, JSON, Third-Party API Integration, Firebase Authentication, ChatGPT API

Databases: SQL Server, MySQL

Tools: Git, GitHub, Angular CLI, NPM, Vite, Webpack, Firebase, Visual Studio Code

Practices: Agile, Responsive UI Development, Production Support, Debugging, API Integration, Performance Optimization

PROFESSIONAL EXPERIENCE

Software Developer
Jun 2024 – Aug 2026

Easy Design Systems Pvt. Ltd., Coimbatore, India

Technologies: Angular, TypeScript, RxJS, Angular Material, REST APIs, SQL Server, SCSS, Git

- Built and maintained core Sales, Finance, Purchase, Accounts, Inventory, and Reporting modules of an enterprise ERP platform used daily by 10,000+ users.
- Developed reusable Angular components, reactive forms, dynamic tables, filters, and validation logic, cutting duplicate UI code across modules and speeding up new feature delivery.
- Integrated REST APIs powering business transactions and workflow processing, and optimized API calls and data rendering to keep high-traffic screens responsive under load.
- Diagnosed and resolved functional, UI, API, and production issues across multiple ERP modules, reducing recurring client-reported defects.
- Delivered live production support to UAE-based clients, including **Castle IT Solutions, Dubai**, troubleshooting restaurant software issues directly with client and support teams to drive faster resolution.
- Partnered with backend developers, QA, and business stakeholders in an Agile workflow spanning requirements analysis, testing, releases, and deployment support.

Web Developer
Nov 2023 – Feb 2024

Machenn Innovation, Coimbatore, India

Technologies: React.js, JavaScript, Vite, Firebase, ChatGPT API, Stockfish Engine

- Built React.js interfaces and reusable components for a chess gaming and learning platform, including AllReal and Sigaram64, developed in association with **Grandmaster Surya Ganguly**.
- Integrated the ChatGPT API and Stockfish Engine to power in-app chess assistance and move analysis features.
- Configured Firebase Authentication for secure, reliable user access.
- Created responsive, interactive layouts optimized for both desktop and mobile devices.

Python Full Stack Developer Intern

Apr 2023 – Oct 2023

Brainery Spot Technology, Coimbatore, India

Technologies: Python, Django, Django REST Framework, MySQL, HTML, CSS, JavaScript, Bootstrap

- Built and shipped a Restaurant Booking System handling end-to-end reservation and menu workflows.
- Developed responsive web pages with HTML, CSS, JavaScript, and Bootstrap.
- Implemented CRUD operations, database integration, and backend business logic using Django and MySQL.

SELECTED PROJECTS

Titan Enterprise ERP Platform

Technologies: Angular, TypeScript, RxJS, REST APIs, SQL Server

- Enterprise ERP platform supporting 10,000+ users across Sales, Finance, Purchase, Accounts, Inventory, and Reporting.
- Built reusable Angular UI components, reactive forms, dynamic tables, filters, and validation workflows; investigated and resolved production issues.

Restaurant Platform: UAE Client

Technologies: Angular, React.js, React Native, REST APIs, CSS

- Restaurant software platform covering menu management, ordering, booking, shopping-cart, and item management workflows.
- Provided direct technical and production support to a UAE-based client, troubleshooting issues and coordinating fixes with the development team.

AllReal / Sigaram64 Chess Platform

Technologies: React.js, JavaScript, Firebase

- Built interactive frontend features and responsive UI components for a chess learning platform associated with **Grandmaster Surya Ganguly**, including Firebase-authenticated user access.

EDUCATION

Bachelor of Engineering: Electronics and Communication Engineering

University College of Engineering, Dindigul,India **(Anna University**) | 2018 – 2022 | CGPA: 7.82 / 10.0

CERTIFICATIONS

- Python Full Stack Web Development, Brainery Spot Technology
- Python (Basic), HackerRank
